DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Alexander et al(US 3,070,870).

Alexander et al discloses an undergarment, brassiere as seen in figure 8 including a support layer 17, a transparent outer layer 7 and an intermediate layer 19 that adheres with heat fusing since the layers are thermoformable materials including lace, tulle and net. All of the materials are transparent and sheer as claimed. The support layer is a material layer that provides support as broadly claimed since any additional layer would provide support. The layers are seamless and overlies each other. The material layers are resilient in that they bend and flex. The pattern of the net, lace and tulle can be seen through each other layer since the layers are all sheer and transparent. (See Alexander et al, col. 7, lines 44-64; col. 8, lines 2-9 and 59-69; figures 8 and 9).

Response to Arguments

Applicant's arguments with respect to claims 1-6 and 8-24 have been considered but are moot in view of the new ground(s) of rejection. The arguments in regard to the "transparent" layers are not persuasive and the comments concerning the subject as stated on page 3 of the previous Final Action stand.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
